ABOUT ME

I'm in the process of changing career and have great expectations for my future in this area. I'm always challenging myself with new projects and trying to learn new things. I'm a calm and hard work person who works well in teams

COMPETENCES

I have basic to advanced knowledge on JavaScript, Typescript, Python, React, HTML, CSS, Node-js and PostgreSQL. I also can fully work with Git and GitHub

LANGUAGES

English - Fluent
Portuguese - Native
Spanish - Intermediate

PROJECTS

API Pokedex

Project made with React, JSX, CSS. Here I used PokeApi API to build a pokedex that shows the pokemon name, type and gif. It also shows more information by selecting a pokemon. You can also search for a specific pokemon by name or type
Link: <https://theodoranascimento.github.io/pokedex/>

API GitHub

Project made using HTML, CSS and JavaScript. Here I used GitHub API to built a search where you can get informations about the user profile, repositories and repositories events.
